Cape Town, South Africa

Profile summary

Intermediate Frontend Web and Mobile Developer with a strong foundation in JavaScript, TypeScript, React Native, and React. Proficient in UI/UX design, I bring a creative approach to crafting user-friendly applications. My background in mobile and web development was honed at Younglings Africa, where I excelled in React Native and later transitioned to React.js for web projects. I've actively contributed to open source software, gaining valuable insights in database management, secure user authentication, and server-side logic. With a passion for innovation and a drive for excellence, I'm eager to leverage my skills to contribute to your team's success.

Experience

Codetelligence Academy **Student**

IT Bootcamp - Codetelligence is an IT boot camp- <https://codetelligence.org.za/>

Jun 2022 - Feb 2023

- Developed small projects using core languages
- Collaborated with **5 students** on a client website
- Secured the UI design six month course certificate
- Learnt about the foundation of frontend web development

Younglings Africa **Intern**

Younglings- Younglings Africa nurture young people between 18 and 35 to become KICKASS SOFTWARE DEVELOPERS - <https://www.younglings.academy/>

Feb 2023 - current

- With a foundation of JavaScript I chose React Native as my framework
- Built multiple cross platform mobile applications
- I was so comfortable with React Native
- With knowledge in React Native learning React js was a breeze
- Secured second place on an internal hackathon hosted by Absa and Younglings
- Obtained certificates in React Native, Javascript ,Typescript

Open Source Contributions

- Contributed to the development of an open-source login server built with Node.js, Express, and MongoDB.
- The project is hosted on GitHub: [GitHub Repository](https://github.com/LathithaKunana/login_server).
- Hosted on Railway.app: [Login Server](<https://login-server.up.railway.app>).
- Gained experience in database management, secure user authentication, and server-side logic.
- Improved collaboration and code quality through active participation in discussions and code reviews on GitHub.

Education

Matric Certificate

Codetelligence Bootcamp Completed 2023

Certifications

UI Deasign
